

2012/01/12

International Symposium: Protein Dynamics and Function –NMR researches toward drug design–の案内

立命館大学 薬学部 北原亮

日時：2012年1月30日（月曜日）

13:00時—17:00時

場所：立命館大学びわこ・くさつキャンパス

エポック立命 K310

Invited talk 1

Frans A. A. Mulder /Interdisciplinary Nanoscience Center (iNANO) and Department of Chemistry, University of Aarhus, Denmark

“Moving targets: Studies of functional protein dynamics by NMR spectroscopy”

Invited talk 2

Koh Takeuchi/Biomedical Information Research Center National Institute of Advanced Industrial Science and Technology

“NMR approach to study and interfere with blood coagulation responses”

Invited talk 3

Kazumasa Sakurai/Institute for Protein Research, Osaka University

“Applications of solution NMR techniques for the elucidation of the mechanism of the amyloid fibril formation”

Talk4

Ryo Kitahara/ Colleges of Pharmaceutical Sciences, Ritsumeikan University

“Structure and Function of marginally populated states of proteins”

主催 難治性疾患・統合創薬プロジェクト

立命館大学 薬学部 北原亮
